

To fight against cancer,
we need your talent

IBA Dosimetry is a worldwide successful company within the Belgian IBA Group in the field of medical devices for the treatment of cancer patients. Besides factories in Germany and Sweden we have offices in the U.S.A. and China. Our excellent reputation as market leader in our field is based on high quality, innovative products and a very strong customer focus.

We are seeking a

Physicists - Customer Support Specialist (m/f)

to our office in Schwarzenbruck near Nürnberg.

The customer support specialist is the direct contact-person for medical physicists and oncologists who use our products at hospitals world wide.

Your Tasks:

- Support our customers in all physics related matters on telephone or on customer site
- Install our products at customer site and train the customer
- Compile and update manuals and training material in cooperation with other departments
- Cooperate with other departments in order to meet customer requests
- World wide travel

Your Skills:

- Physicist preferably with education or work experience in medical physics
- Very good communication skills
- Good English skills
- Ability to deal with colleagues and customers from other cultures
- Proactive and result oriented way of work.

If you are fluent in English and see a challenge to work in a high quality oriented, international team, we are looking forward to receive your application on-line. Welcome to register your application on our home page.
