

To fight against cancer,
we need your talent

IBA Dosimetry is a worldwide successful company within the Belgian IBA Group in the field of medical devices for the treatment of cancer patients. Besides our factory in Germany we have offices in the U.S.A. and China. Our excellent reputation as market leader in our field is based on high quality, innovative products and a very strong customer focus.

IBA Dosimetry offers a full range of innovative measuring instruments and software that enable medical physicists and radiologists to perform the necessary quality assurance and calibration procedures. Here, we are covering the fields of radiotherapy, radiodiagnostic and calibration services from our Secondary Standard Dosimetry Laboratory. IBA Dosimetry's strong points are innovation, high quality and reliable relationships with our customers, scientists and industrial partners.

For our development department in Schwarzenbruck near Nürnberg we are seeking for a

Senior Medical Physicists (m/f)

to strengthen our research team:

- You will apply your skills and talents into fascinating scientific and technical problems.
- You will participate in the design and development of new products and features, as well as in the implementation and testing of prototypes.
- As a medical physics expert at IBA Dosimetry, you will have strong interaction with product management and engineering teams, as well as with scientific partners, in order to rise to the challenges from scientific and medical communities. Your deep knowledge in the field of Medical Physics will help to conduct internal trainings of other groups within our company.

Your Skills:

- Diploma or PhD. in Physics, ideally in the field of radiotherapy and diagnostics or a related field .
- At least 5 years of clinical experience as a Medical Physicist or in a comparable position
- Good communication skills

If you are fluent in English and see a challenge to work in a high quality oriented, international team, we are looking forward to receive your application on-line. Welcome to register your application on our homepage.
